

ASURE ID[®] 7 IS HERE.

- **Friendly and intuitive interface** - Enhanced user experience makes photo ID card design and data entry a breeze.
- **One program for all printers** - Asure ID works with a variety of printers. And while other programs come and go, Asure ID is backed by the Genuine HID[™] commitment, so you can invest with confidence knowing we're here to stay.
- **Auto-Update** - You're always up-to-date with automatic notifications of free software updates to ensure that the software is never outdated, only available with Asure ID.

Tools at your fingertips

- Multi-task with tabbed navigation, and effortlessly switch between card design and data entry, managing each independently
- The toolbar puts frequently used elements into logical order
- De-clutter the workspace by hiding colors and attributes until they're needed, using pop-out control palettes
- "What You See Is What You Get" display helps ensure accurate card design by showing exactly how a card will print, including data placeholders.

Productivity has never looked better.

Asure ID offers much more than good looks, it provides a dramatic speed boost. Everything you need to design and populate a card is right in front of you in a crisp, clean environment that allows the user to glide from data entry to card design to printing.

Everyday work made effortless.

Routine tasks can be performed with a couple of mouse clicks. It's a snap to capture or load a photo, void a card or set the print counter. And you can populate card data fields directly from the internal Microsoft Access[™] database. These and other frequently-used features are within easy reach on the Microsoft "Ribbon"-inspired toolbar.

Asure ID "remembers".

At startup, Asure ID initiates automatic loading of the last template used, letting you pick up exactly where you left off.

Find it fast!

When time counts, the optional **Quick Filter** allows a wildcard search on any field in the database.

Simply intuitive.

For all its power and convenience, the most surprising part of Asure ID is its intuitive nature. Tools and processes have been so carefully designed that it seems to anticipate what you need next.

Asure ID takes ID card personalization to the next level by making users more productive. Ask your HID Global dealer.

HID GLOBAL IS THE LEADER IN SOLUTIONS FOR THE DELIVERY OF SECURE IDENTITY.

Asure ID is just one part of a complete, integrated system for the issuance, management and authentication of secure IDs. Your HID Global dealer can custom design a secure identity system using proven HID components including:

- FARGO® ID Card Printer/Encoders
- Cards, ribbons, films and overlaminates
- Digital cameras and photo accessories
- ID card holders, lanyards and clips
- ID card production services
- HID contact and contactless card readers, including iCLASS® smart card readers

The suggested minimal system requirements for Asure ID 7 are:

- 1 gigahertz (GHz) or faster processor
- 1 gigabyte (GB) RAM
- 1 GB available hard disk space
